

Services

Residential

We offer a residential program for boys and girls aged 5 to 11. We are committed to working with children and families so that they are strong, connected, and have the support necessary to overcome life's challenges. We emphasize safety, problem solving, collaboration and growth.

Day Treatment

We partner with Westwood Academy to offer integrated mental health and educational programming. This therapeutic setting with an educational component provides children a place to learn and build the skills necessary to return to their home school.

Outpatient

As part of our continuum of care, we offer both therapeutic and psychiatric services. We offer a trauma informed treatment program. We understand that our children have experienced trauma, and we provide services designed to help them overcome it.

Prevention Services

Through a collaboration between Franklin County ADAMH and the YWCA Family Center, The Heritage of Hannah Neil provides prevention services to the homeless population living in the shelter.
